ABOUT

MARIA MURRAY
OWNER

Maria Murray is the Owner of Optimum Results Business Solutions, which offers accounting, HR, and business services to small and mid-sized businesses in Irvine, CA and surrounding areas. She is most passionate about finding solutions in order to successfully complete complicated projects—especially those with tight deadlines—and solve any problem that may arise for her clients.

Maria is a Professional Bookkeeper and a Certified QuickBooks® Online Pro Advisor. Proficient on both QuickBooks Desktop and Online, Maria has strong experience in full cycle accounting, bookkeeping, GAAP, payroll, human resources, benefit administration, and financial reporting – everything a business needs from an accounting standpoint.

Prior to launching Optimum Results Business Solutions, Maria worked as a Controller at Joingo, LLC, where she managed business and accounting responsibilities and played a substantial role in collections and reducing aged accounts receivable. In addition, she has years of experience working as both a payroll accountant and benefit administrator.

Maria earned her Associate’s degree in Applied Science in Accounting from Western Nevada College and studied accounting with an IS emphasis at College of St. Catherine in St. Paul, Minnesota. When she’s not working, she enjoys long distance road trips with her family and dog, Buster; hiking and exploring new places with water; and volunteering and fundraising for events and local organizations in need, such as: veterans, the elderly, and survivors of domestic violence and grief.

Our Mission

The purpose of Optimum Results Business Solutions is to serve small businesses. We supply solutions to automate accounting, finance & workflow so owners can have the freedom to focus on the success of their core business.
